

# You survived the storm... Now what do you do?

*Take care of your damage in three simple steps:*

**1) Document any damage** – Take pictures, video, write things down a list and call your insurance company. Don't leave anything out.

**2) Report any damage** – Contact your local municipality or call 2-1-1. It's important for emergency managers to get an overall picture of what happened. This is a great way to do that.

**3) Be safe when cleaning up any damage** – Trees, shingles and other debris may look harmless but there could be hidden dangers. Be sure to wear proper safety equipment.
