

If you smell gas:

If you smell gas, suspect a leak, or if there is an explosion or fire, call PECO immediately: **1-800-841-4141**. You can use this number 24 hours a day, every day.

Know what to do about:

A FAINT odor of natural gas: Check to see if a pilot light is out or a burner is partially on. If you cannot find the source, call PECO.

A VERY STRONG gas odor:

Evacuate everyone immediately and call PECO from OUTSIDE. Call 911 and PECO.

- DO NOT turn on or off any electrical switches
- DO NOT use any of phones, radios, doorbells, or flashlights
- DO NOT smoke, strike a match, or use a lighter
- DO NOT start a motor vehicle near the building

A suspected leak OUTSIDE:

If you notice a gas odor outdoors, maybe the gas meter or around the sidewalk or street, call PECO. The building does not need to be evacuated and you can call from indoors.

Act quickly: Reporting a gas odor promptly plays a critical role in ensuring your safety. Natural gas has no natural odor, so the odor is added to help you detect when a leak occurs. Leaks can occur after nearby construction or ground movement during winter's deep freeze.
